

The Apple Tree School Kindergarten Curriculum

CHARACTER EDUCATION:

Students learn basic virtues such as honesty, diligence, fairness, and loyalty. Our goal is to build character and morals based on obedience and respect.

We are serious about training children in good habits like completing assignments, telling the truth, being on time, and accepting the consequences of their actions.

KINDERGARTEN CURRICULUM:

Students will learn to read many words including words with two vowels and words that contain special sounds (special sounds are letter combinations like sh & ar).

Reading vocabulary naturally grows with each new sound learned. Students will take home readers, learn spelling words, and learn Bible verses.

They will learn to count and recognize numbers 1 - 100. They will learn addition and subtraction facts and additional concepts. Students will also learn to tell time and work with money.

They will learn the seven continents (including climate, population, economy and culture), United States and Capitals, Presidents, World Leaders and Inventors.

Additional Concepts Covered During The Entire School Year

Graphing
Observing Changes
Analyzing

Predicting
Self-Concepts
Cooperation

Problem Solving
Comparing/Contrasting
Collecting Information

Experimenting
Following Directions
Story Writing
